Roundstone Headquarters Relocates to Historic Building

Roundstone relocates its corporate headquarters to a historic Lakewood, Ohio building, effective February 21, 2017.

LAKWOOD, Ohio – Roundstone Management, Ltd. (“Roundstone”), an insurance company leading the way in self-insured solutions for mid-size companies, is pleased to announce the move to its new headquarters. Roundstone brings nearly 50 employees to the new location in Lakewood, Ohio.

At 23,000-square-feet, the building is approximately twice the size of Roundstone’s former location in Westlake, Ohio. The Lakewood facility features modern, open workspaces, a training facility, an employee lounge, a gym and ample collaboration space.

“Our new office space gives us the ability to not only increase our personnel, but to do so with the latest technology in a collaborative environment,” said Roundstone President Michael Schroeder. “With the amenities of the new building and our location in downtown Lakewood, including restaurants, housing and shopping just outside our door, I’m confident we’ll continue to attract top-notch talent.”

The move follows a year-long renovation to the historic building. Originally completed in 1922 as the First Church of Christ Scientist, the Neoclassical building was designed by Chicago-based architect Charles Draper Faulkner, whose designs span the United States and Japan. The building was designated a Historic Landmark by the city of Lakewood, Ohio in 2012, and every effort was made during the renovation to keep the original details intact, including stained glass windows, vaulted ceilings, Doric columns and original woodwork.

Roundstone's new address is 15422 Detroit Avenue, Lakewood, OH 44107. The company's phone number (440-617-0333) and all email addresses will remain the same.

Roundstone Management, Ltd. ("Roundstone"), based in Lakewood, Ohio, is an insurance company that develops and underwrites innovative captive/self-insurance solutions for a variety of exposures, including health insurance, malpractice, voluntary benefits, transportation, warranty and workers' compensation.
