

Meet the Cost Savings Investigators

YOUR PERSONAL CSI TEAM

Roundstone's team of data analysts, plan experts and client managers will work in conjunction with your advisor to deliver cost saving solutions that can be implemented into your health plan.

WHAT IT IS

Roundstone wants to help you be proactive with your health plan costs. By engaging with the CSI Team, you can institute changes, gain control and realize savings.

HOW IT WORKS

The CSI Team will review your claim data via the CSI Dashboard and provide insight into your health care spend for you to discover and realize cost saving opportunities.

OUR MISSION

Deliver to employers the value of transparency and control.

OUR VISION

Employers proactively implementing cost saving strategies.

THE FEATURES AND BENEFITS

Roundstone's CSI Dashboard Your Medical Claims Analytics Platform

To keep health care costs low, you need to understand what causes them to rise. Gain transparency into your medical claims with the Roundstone CSI Dashboard.

The CSI Dashboard, Roundstone's health insurance analytics platform, was created for you by the Cost Saving Investigators (CSI Team). The dashboard provides a visual display of your medical claims, allowing for a real time review of company health care spending.

Having this information at your fingertips not only helps you monitor your health care costs, but also enables you to take action to reduce spending while improving the quality of care.

Popular cost savings opportunities:

- Reduce Rx spending by switching to a more cost-effective pharmacy benefit manager (PBM) offering the same prescriptions.
- Introduce case management programs for chronic illness that minimize emergency room visits and provide symptom relief through personalized care management.

EASY TO UNDERSTAND

Data clearly arranged with comprehensive descriptions.

AUTOMATED REPORTING

Receive reports every month detailed by service type, claim category & condition.

BENCHMARKING

Compare your claims spending to national benchmarks for performance assessment.

HIPAA COMPLIANCE

Individual employee claims remain anonymous across the dashboard.

CSI TEAM ASSISTANCE

Our CSI Team is available to help you translate data into actionable insights.
